Re: WKCI (AM), Waynesboro, Virginia  
Facility Identification Number: 70862  
CC Licenses, LLC  
Special Temporary Authorization

Dear Mr. Langham:

This is in reference to the request filed May 17, 2010, on behalf of CC Licenses, LLC ("CCL"). CCL requests further extension of the special temporary authority ("STA") granted on April 27, 2007, to operate Station WKCI with parameters at variance from licensed values and/or reduced power while maintaining monitor points within licensed limits.<sup>1</sup>

In support of the request, CCL states that it has continued to diagnose its antenna system and has determined that all the transmission lines must be replaced. CCL states that the necessary lines and accessories have been ordered and that receipt and installation are anticipated soon.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

---

<sup>1</sup> WKCI is licensed for operation on 970 kHz with 5 kilowatts daytime and 1 kilowatt nighttime, employing different directional antenna patterns daytime and nighttime (DA-2-U).

Our review indicates that the licensee has made progress toward restoration of licensed operation, but additional time is required for completing the work. Thus, extension of STA is warranted.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station WKCI may continue to operate with parameters at variance and/or reduced power while maintaining monitor points within licensed limits. It will be necessary to further reduce power or cease operation if complaints of interference are received. CCL must notify the Commission when licensed operation is restored.<sup>2</sup> CCL must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR § 1.1310.

This authority expires on **December 17, 2010**.

Sincerely,

A handwritten signature in blue ink, appearing to read "Charles N. Miller", with a long horizontal flourish extending to the right.

Charles N. Miller, Engineer  
Audio Division  
Media Bureau

cc: CC Licenses, LLC
